

SK MD AFSARUDDIN

Junior Java Developer|Full-StackEngineer|Cybersecurity Enthusiast

Hyderabad,Telangana | +919830442752 | skmdafsaruddin2@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Motivated Computer Science graduate (B.Tech, 2025) with strong foundations in Core Java, Object-Oriented Programming (OOP), Collections Framework, and Exception Handling. Hands-on experience building production-grade projects spanning machine learning, relational databases, and secure web applications. Proficient in Java (OOP, Collections, Exception Handling, Multithreading, JDBC, Java 8+), Data Structures, Spring Boot, REST APIs, and cloud platforms (AWS, Azure). Recognized with multiple Vice Chancellor Awards for academic and leadership excellence. Eager to contribute as a Java Developer or Full-Stack Engineer in a fast-paced, collaborative environment.

TECHNICAL SKILLS

Core Java: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, JDBC, Java 8+, Data Structures, Generics, Stream API, Lambda Expressions

Java Frameworks & Tools: Spring Boot, Hibernate, JPA, Maven, JUnit, REST API Design, SOLID Principles, Design Patterns, MVC Architecture

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js

Backend & APIs: REST APIs, Node.js (basic)

Databases: MySQL, MongoDB, Relational Databases, SQL (DDL/DML/DCL), JDBC, PostgreSQL

DevOps & Tools: Git, GitHub, Maven, Postman, PowerBI, Tableau

Cybersecurity: OWASP Top 10, XSS Prevention, SQL Injection Prevention, Secure Coding Practices, Threat Awareness

AI & Automation: Anthropic AI, Agentic AI, AI Automation, Gen AI

Methodologies: SDLC, Agile, OOP Design Principles, Software Design Patterns, Unit Testing

Languages: Core Java, Python, C, C++, Apex

Operating Systems: Windows, Linux, MacOS

EXPERIENCE

Security Analyst Intern

June 2026 – Present

Oasis Infobyte · Internship

- Assisting in identifying and analyzing security vulnerabilities in web applications, applying OWASP Top 10 principles to flag risks such as XSS and SQL injection.
- Supporting security assessments and documentation of findings to strengthen application-level defenses under mentor guidance.
- Gaining hands-on exposure to secure coding practices and threat awareness as part of a structured, learning-focused fellowship.

Web Development Intern

Apr 2026 – May 2026

Synent Technologies · Internship · Hyderabad, Telangana, India · Hybrid

- Designing and building UI for new web applications using Core Java, Spring Boot, React.js, HTML5, CSS3, and JavaScript (ES6+) — contributing to end-to-end feature delivery in a hybrid Agile team environment.
- Developing reusable components and plugins integrated with Spring Boot REST APIs and MySQL relational databases — applying Object-Oriented Programming (OOP), Collections Framework, and Exception Handling best practices.
- Authoring technical documentation for developed components and modules — enabling cross-functional collaboration and smooth knowledge transfer across the development team.
- Identifying and resolving important technical issues including JDBC connectivity bugs, SQL query performance bottlenecks, and frontend rendering errors — collaborating closely with senior developers via Git and GitHub for version control.

LIVE PROJECTS

Personal Portfolio Website | React.js | Tailwind CSS | JavaScript (ES6+) | Responsive Design

- Designed and developed a fully responsive Personal Portfolio Website using React.js with reusable component architecture and Tailwind CSS utility-first styling — showcasing projects, skills, certifications, and professional experience with a clean, modern UI.
- Built modular, reusable React components (Hero, Skills, Projects, Contact sections) with props-driven design — enabling easy content updates and consistent styling across the entire application using Tailwind CSS responsive utilities.
- Implemented cross-browser compatible, mobile-first responsive layouts using Tailwind CSS Grid and Flexbox utilities — ensuring seamless rendering across all screen sizes and devices with optimized performance.

Woosh – To Do App | HTML5 | CSS3 | Vanilla JavaScript

- Built a fully functional task management app with a retro-futuristic terminal UI using pure HTML5, CSS3, and Vanilla JavaScript — demonstrating strong Core JavaScript fundamentals with zero dependencies.
- Implemented localStorage persistence for task data survival across page refreshes, dynamic DOM manipulation for add/complete/delete operations, and smooth CSS animations for task interactions.
- Developed ambient particle canvas with burst effects on task completion, live clock, efficiency progress bar, and HUD stats — showcasing advanced UI engineering and creative problem-solving skills.

Interview Preparation Platform | React.js | React Router | SCSS | Node.js | Express.js | MongoDB | Mongoose | Google Gemini AI | Puppeteer | Multer | JWT

- Built end-to-end Full Stack Gen AI platform with React.js frontend and Node.js/Express.js backend — featuring resume analysis, job match scoring, personalized interview Q&A, skill gap analysis, and a day-wise preparation plan.
- Integrated Google Gemini AI for intelligent resume analysis, technical/behavioral question generation, and ATS-friendly PDF resume generation via Puppeteer — demonstrating real-world AI integration skills.
- Implemented JWT Authentication, MongoDB/Mongoose for data persistence, Multer for file uploads, and RESTful API design — applying backend development best practices in a production-grade full-stack architecture.

Login/Register Page UI | HTML5 | CSS3 | JavaScript

- Designed and built a fully functional Login & Register Page UI from scratch featuring a custom Aurora cursor with particle trail, animated dark theme with glowing orbs, and real-time password strength meter.
- Implemented complete form validation, responsive mobile-first layout, and modern UI/UX patterns — demonstrating strong frontend fundamentals and attention to design detail.

EDUCATION

Bachelor of Technology — Computer Science Engineering
University of Engineering and Management, Kolkata

2025 | DGPA: 7.72

Class XII (ISC)
St Thomas' Church School, Howrah

2021 | 85%

Class X (ICSE)
St Augustine's Day School, Kolkata

2019 | 79.8%

LEADERSHIP & ACCOLADES

- Student's Gymkhana Convenor (2024–2025) — managed institutional coordination and delivered against organizational objectives independently.
- President, Rotaract Club, UEM Kolkata — led cross-functional team initiatives, community projects, and collaborative program delivery.
- Vice Chancellor's Award for Overall Performance — 2022
- Vice Chancellor's Award for Best Student Contribution — 2023 & 2024
- Outstanding Student Contribution Award — Academic Year 2025

CERTIFICATIONS

- Angular Foundation Course — Certificate ID: BMM1130426
- Claude 101 — Anthropic AI
- Claude Code 101 — Anthropic AI
- CSS for Developers
- Docker Essentials: A Developer Introduction — Certificate ID: 24731c6c02ff4db687b1c768a03268b4
- Docker Foundations Professional Certificate — Certificate ID:
