

SK MD AFSARUDDIN

Junior Java Developer | Full-Stack Engineer | Cybersecurity Enthusiast

Hyderabad, Telangana | +91 9830442752 | skmdafsaruddin2@gmail.com | [linkedin.com/in/skmdafsaruddin](https://www.linkedin.com/in/skmdafsaruddin)

PROFESSIONAL SUMMARY

Motivated Computer Science graduate (B.Tech, 2025) with strong foundations in Core Java, Object-Oriented Programming (OOP), Collections Framework, and Exception Handling. Hands-on experience building production-grade projects spanning machine learning, relational databases, and secure web applications. Proficient in Java (OOP, Collections, Exception Handling, Multithreading, JDBC, Java 8+), Data Structures, Spring Boot, REST APIs, and cloud platforms (AWS, Azure). Recognized with multiple Vice Chancellor Awards for academic and leadership excellence. Eager to contribute as a Java Developer or Full-Stack Engineer in a fast-paced, collaborative environment.

TECHNICAL SKILLS

Core Java: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, JDBC, Java 8+, Data Structures, Generics, Stream API, Lambda Expressions

Java Frameworks & Tools: Spring Boot, Hibernate, JPA, Maven, JUnit, REST API Design, SOLID Principles, Design Patterns, MVC Architecture

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Angular

Backend & APIs: Spring Boot, REST APIs, Node.js (basic)

Databases: MySQL, MongoDB, Relational Databases, SQL (DDL/DML/DCL), JDBC, PostgreSQL

Cloud Platforms: AWS (EC2, S3), Microsoft Azure

DevOps & Tools: Git, GitHub, Maven, Postman, PowerBI, Tableau

Cybersecurity: OWASP Top 10, XSS Prevention, SQL Injection Prevention, Secure Coding Practices, Threat Awareness

AI & Automation: Anthropic AI, Agentic AI, AI Automation, Gen AI

Methodologies: SDLC, Agile, OOP Design Principles, Software Design Patterns, Unit Testing

Languages: Core Java, Python, C, C++, Apex

Operating Systems: Windows, Linux, MacOS

EXPERIENCE

Web Development Intern

Apr 2026 – Present

Synent Technologies · Internship · Hyderabad, Telangana, India · Hybrid

- Designing and building UI for new web applications using Core Java, Spring Boot, React.js, HTML5, CSS3, and JavaScript (ES6+) — contributing to end-to-end feature delivery in a hybrid Agile team environment.
- Developing reusable components and plugins integrated with Spring Boot REST APIs and MySQL relational databases — applying Object-Oriented Programming (OOP), Collections Framework, and Exception Handling best practices.
- Authoring technical documentation for developed components and modules — enabling cross-functional collaboration and smooth knowledge transfer across the development team.
- Identifying and resolving important technical issues including JDBC connectivity bugs, SQL query performance bottlenecks, and frontend rendering errors — collaborating closely with senior developers via Git and GitHub for version control.

LIVE PROJECTS

IPL Score Predictor | Python | Scikit-learn | Pandas | Machine Learning

- Designed and developed an end-to-end IPL Score Predictor integrating a supervised Machine Learning model trained on large historical cricket datasets using Object-Oriented Programming principles throughout the codebase.
- Applied data preprocessing, feature engineering, and regression algorithm selection to achieve reliable score predictions — demonstrating strong problem-solving and analytical skills.

- Built full-stack interface enabling real-time user input and live score prediction output — delivered collaboratively with measurable team contribution.

Airline Base Management System | Core Java | MySQL | PostgreSQL | HTML | CSS

- Engineered relational database schema and frontend components for an operational airline management platform handling sensitive scheduling and logistics data using SQL (DDL/DML/DCL) and JDBC.
- Implemented access control, data integrity constraints, and SQL Injection prevention measures aligned with OWASP best practices — demonstrating secure coding practices and knowledge of Exception Handling.
- Designed normalized relational database structures (3NF) ensuring consistency, reliability, and secure multi-user data access across the system.

Gym Management System | Core Java | SQL | MySQL

- Independently developed a full Gym Management System with member registration, subscription tracking, billing, and attendance management modules using Core Java with OOP, Collections Framework, and Exception Handling.
- Designed relational database schemas with access control, data integrity rules, and secure data handling protocols to protect user information — applying Java JDBC for database connectivity.
- Delivered project end-to-end with minimal supervision, demonstrating strong problem-solving, time management, and Java backend development skills.

Music Player Website | HTML | CSS | JavaScript

- Built a fully functional, responsive Music Player web application frontend with playlist management, playback controls, and dynamic UI rendering using JavaScript (ES6+).
- Applied secure coding practices including input validation and XSS prevention to ensure data integrity across all browser interactions.
- Collaborated with team members in a structured delivery model producing reliable, tested outputs within defined project timelines.

EDUCATION

Bachelor of Technology — Computer Science Engineering
University of Engineering and Management, Kolkata

2025 | DGPA: 7.72

Class XII (ISC)
St Thomas' Church School, Howrah

2021 | 85%

Class X (ICSE)
St Augustine's Day School, Kolkata

2019 | 79.8%

LEADERSHIP & ACCOLADES

- Student's Gymkhana Convenor (2024–2025) — managed institutional coordination and delivered against organizational objectives independently.
- President, Rotaract Club, UEM Kolkata — led cross-functional team initiatives, community projects, and collaborative program delivery.
- Vice Chancellor's Award for Overall Performance — 2022
- Vice Chancellor's Award for Best Student Contribution — 2023 & 2024
- Outstanding Student Contribution Award — Academic Year 2025

CERTIFICATIONS

- Angular Foundation Course — Certificate ID: BMM1130426
- ReactJS Foundations Course — Certificate ID: 6EKU130426
- Enhancing Your Web Developer Skills — HTML
- CSS for Developers
- NPTEL Enhancing Soft Skills Program
- Claude 101 — Anthropic AI
- Claude Code 101 — Anthropic AI
